

PILOT meets ASKAP

A discussion of scientific synergies.

Where: Room 64
Old Main Building
University New South Wales

When: 3pm, Friday 30 May.

This meeting will bring together the astronomers from the PILOT team and the ASKAP team, to discuss areas of overlap, complementarity, and common goals. Although principally a science discussion, we will also explore other aspects of the projects of mutual interest where we believe a collaborative approach will be useful.

1500 - 1530 Overview of ASKAP science (Feain)
1530 - 1600 Overview of PILOT science (Saunders/Lawrence)
1600 - 1700 Discussion of synergies (all)

All welcome!
